Work Experience

May 2019 – **Lead Software Engineer / Vice President**
Sep 2025 JPMorgan Chase & Co., Seattle, WA

Research and development

- Led a team of 4 in architecting and implementing a dual-region, multi-threaded forensics search platform indexing millions of files with sub-80ms latency
- Reduced workflow execution time by 83% by engineering 4 custom *Kestra* plugins that streamlined authentication and validation, scaling across 12 engineering teams
- Improved SQL workload performance by 63% over the on-prem platform by delivering multi-tenant Trino on EKS for AI, ML, and BI teams

Infrastructure modernization

- Spearheaded public cloud migration of the on-prem *SIEM*, automating infrastructure and backend services to save \$2 million annually in the organization's flagship project
- Drove a 30x performance boost and \$1M+ annual savings by optimizing caching and enrichment design within a serverless data processing engine
- Optimized operational processes by over 90% through innovation on a new zero-downtime Splunk rehydration framework

Cloud controls testing platform

- Implemented keyword-driven synthetic tests in *Robot Framework* to evaluate the efficacy and reliability of cloud controls detection and remediation
- Built Kafka pipelines to schedule acceptance tests and stream logs across hybrid cloud environments into a centralized on-prem event collection platform

Personal Project

Event Map, *eventmap.site*

Event visualizer mapping Seattle and five major cities to surface traffic impact, timing, and event scale

- Rust (*Actix*), PostgreSQL (*PostGIS*), LLM location resolution, React, GCP, Nginx

Code Graph, *source code*

Codebase AI assistant using RAG for fast vector search and trusted, file-cited engineering answers

- Rust (*Axum*), PostgreSQL, Qdrant, OpenAI Embeddings API, Docker

Technical Skills

Languages Python, Rust, C++, Java

Technologies AWS, GCP, Terraform, K8s, Docker, DynamoDB, PostgreSQL, OpenSearch, Kafka, DynamoDB

Education

2017 **University of Minnesota Twin Cities**, Minneapolis, MN
Bachelor of Science in Computer Science
